Received & Inspected

May 12, 2017, Dear FCC and FCC Commissioner Ajit Pai,

MAY 17 2017

FCC Mail Room

Net Neutrality rule was established in 2015 and is absolutely essential to protecting and to growing our economy. Businesses of all kinds big and small, organizations of all kinds big and small, depend on an open and free internet to quickly and efficiently get information they need to survive, grow and prosper and to efficiently serve their clientele. Killing net neutrality would throttle the growth and success of small businesses. Small businesses of today with their innovation and new ideas are the drivers of the future growth and success tomorrow of the US economy. Students at all education levels and individuals as well depend on an open and free internet for access to the information they need on the spot for their studies and for learning things that they need to know that are vital to their everyday life. Killing Net Neutrality and dividing the internet into fast and slow lanes and making businesses and organizations pay to have access to the fast internet lanes would gravely disadvantage smaller businesses, small organizations, slow the economy, hamper easy access to important information for students at all educational levels and for all other individuals who need access to quick information to aid their own success in all spheres of life. IN SHORT, PLEASE SAY NO TO THE FCC'S HARMFUL MOVES TO KILL NET NEUTRALITY AND THUS TO FORCE EVERYONE, EVERY BUSINESS AND ORGANIZATION INTO FAST AND SLOW INTERNET LANES. THE CONTINUED SUCCESS OF THE USA, ITS ECONOMY AND ITS CITIZENS DEPENDS 100% ON AN OPEN AND FREE INTERNET. Thank you for your time, Morgan Hoover fellow US citizen
